

SfE BES 2025 On-Demand programme

Plenary and Award Lectures

Plenary 1: Clinical Endocrinology Journal Foundation Visiting Professor Lecture

Management of (malignant) pheochromocytoma / paraganglioma - update 2025 - **Martin Fassnacht (Wurzburg, Germany)**.

Plenary 2: Society for Endocrinology Starling Medal Lecture

Congenital Hyperinsulinism: using genetics to improve diagnosis and knowledge of disease mechanisms - **Sarah Flanagan (Exeter, UK)**

Plenary 3: Presidential Lecture

Mapping the Human Body One Cell at a Time - **Sarah Teichmann (Cambridge, UK)**

Plenary 4: Society for Endocrinology Dale Medal Lecture

Growth Hormone, DNA Damage and Cancer - **Shlomo Melmed (Los Angeles CA, USA)**

Plenary 5: British Thyroid Association Pitt-Rivers Lecture

Autoantibodies to the TSH Receptor - from discovery to understanding mechanisms of action and new therapeutics - **Bernard Rees Smith (Cardiff, UK)**

Plenary 6: Society for Endocrinology Jubilee Medal Lecture

An accidental endocrinologist - **Ashley Grossman (Oxford, UK)**

Plenary 7: Society for Endocrinology International Medal Lecture

TBC - **Shalender Bhasin (Boston, USA)**

Plenary 8: Society for Endocrinology Medal Lecture

Endocrine dependence of maturation and developmental programming of mitochondrial oxidative phosphorylation (OXPHOS) function before birth - **Abigail Fowden (Cambridge, UK)**

Plenary 9: Clinical Endocrinology Journal Foundation Lecture

Improving the management of thyroid diseases: from the bench to the bedside - **Kristien Boelaert (Birmingham, UK)**

Teaching Achievement Award

Empowering Students in Endocrine Science: The Establishment of the MSS Summer School - **Paul Foster (Birmingham, UK)**

Outstanding Clinical Practitioners

- Crisis as a catalyst - **Stefanie Baldeweg (London, UK)**
- Hungry for more: a tale of guts and hormones - **Barbara McGowan (London, UK)**

Symposia Sessions

- Disorders of bone mineral density - mechanisms, consequences and management
- Emerging Mechanisms and Treatments in Fatty Liver
- The adipose microenvironment: the missing link between obesity and cancer?
- Hot Topics in Diagnosis and Management of Pituitary Tumours
- Thyroid Cancer from Bench to Bedside
- The benign, the bad and the ugly of adrenal lumps: an update
- Frontiers in Non-Reproductive Actions of Sex Hormones Across the Lifecourse

Meet the Expert Sessions

- Best Practice in Managing Turners Syndrome
- Treatment resistant prolactinomas
- Adrenal tumors in children, adolescents and during transition: update on management
- Advances in medical therapy for Graves' ophthalmopathy
- Mechanisms of Cancer Cachexia
- Current Management of Hyperparathyroidism
- Tales of the unexpected in the adrenal MDT

Workshops

- Basic Physiology Workshop - Cutting Edge Session: New Insights Into Hormonal Regulation of Behaviour
- Basic Science Workshop 1: New ways to illuminate endocrine (patho) physiology
- Clinical Management Workshop 1: Calcium disorders in pregnancy

Additional Sessions

- How do I...1 & 2?
- Endocrine Emergencies - The Sequel

- Legends of Endocrinology
- Endocrinology in the Era of “Fake News”
- Emerging Researcher Lectures & Plenary Orals
- Debate: HRT should be used for the primary prevention of disease in menopausal women

Nurses Sessions

Nikki Kieffer Medal

Adrenal Insufficiency: a nurse perspective from novice to expert - ***Lisa Shepherd***
(Birmingham, UK)

- MTE - Advancing endocrine nursing: German perspective
- Polycystic Ovary Syndrome (PCOS)
- Acromegaly - challenges and progress in the management of Acromegaly
- What's Innovative and New in Endocrine Nursing (WINE) session
